

Radon Compliance Certification

Rehabilitation

I hereby acknowledge and attest the following:

Prior to the commencement of the rehabilitation on the project known as _____ (the "Project") located at _____, each of the Project's _____ buildings was tested for radon by a qualified professional. _____ of the buildings (with their specific addresses set forth in the attached Exhibit A, if any) demonstrated a radon level at or above 4pCi/L ("Pre-Rehabilitation High Radon Buildings").

A radon reduction system has been installed and activated in each of these Pre-Rehabilitation High Radon Buildings. In addition, a radon mitigation plan which satisfies the requirements of CPD-23-103 (p. 7: Mitigating Radon) has been created and implemented. Said radon mitigation plan shall also be submitted to the Arkansas Development Finance Authority via the Radon Mitigation slot in MITAS.

(check box if no Pre-Rehabilitation High Radon Buildings)

The Project's rehabilitation involved heating/cooling system work and/or work pertaining to the building envelope for _____ buildings. Of these _____ buildings, _____ had not previously tested at or above 4pCi/L ("non-Pre-Rehabilitation High Radon Buildings") and, therefore, had no radon reduction system installed. After the completion of the rehabilitation work, each of these non-Pre-Rehabilitation High Radon Buildings was tested again for radon. _____ of these buildings (with their specific addresses set forth in the attached Exhibit A, if any) demonstrated a radon level at or above 4pCi/L ("Post-Rehabilitation High Radon Buildings").

A radon reduction system has been installed and activated in each of these Post-Rehabilitation High Radon Buildings. In addition, a radon mitigation plan which satisfies the requirements of CPD-23-103 (p.

7: Mitigating Radon) has been created and implemented. Said radon mitigation plan shall also be submitted to the Arkansas Development Finance Authority via the Radon Mitigation slot in MITAS.

(check box if no Pre-Rehabilitation High Radon Buildings)
