

AMERICANS WITH DISABILITIES ACT (ADA) MEDICAL CERTIFICATION FORM

SECTION I: EMPLOYEE INFORMATION

Employee (First, MI, Last): _____

Job Title: _____

Work Schedule: _____

SECTION II: FOR THE MEDICAL PROVIDER TO REVIEW & COMPLETE

Our employee is indicating he/she/they cannot receive a COVID-19 vaccination due to a medical condition. As part of the interactive process, we would appreciate your assistance in providing feedback to the questions below based on your medical expertise. Please answer all questions on this form to help us determine the employee's disability and understand how the employee is prevented from being vaccinated against COVID-19 due to the disability.

Please do not provide any medical information unrelated to these issues.

Americans with Disabilities Act (ADA). An employee has a covered disability if she/he/they has a physical or mental impairment that substantially limits one or more major life activities or has a record of such an impairment. The ADA provides examples of "major life activities," including "caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, working, and the operation of a major bodily function, such as functions of the immune system, normal cell growth and digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine and reproductive functions."

GINA Disclosure. The Genetic Information Nondiscrimination Act of 2008 (GINA) prohibits employers and other entities covered by GINA Title II from requesting or requiring genetic information of an individual or family member of the individual, except as specifically allowed by this law. To comply with this law, we are instructing you not to provide any genetic information when responding to this request for medical information. "Genetic information," as defined by GINA, includes an individual's family medical history, the results of an individual's or family member's genetic tests, the fact that an individual or an individual's family member sought or received genetic services, and genetic information of a fetus carried by an individual or an individual's family member or an embryo lawfully held by an individual or family member receiving assistive reproductive services.
